

WATERMARK INSTRUCTIONS FOR DVDS

All projects must be finalized with the following watermark burned in throughout the entire scene:

"This is a classroom exercise and not intended for distribution."

It is that version that you will give to your actors with the reminder that the SAG contract states that they may not post more than thirty seconds of the material. These rule are to keep you and the actors and me and the school from infringing on copyright.

You must give your SA a copy of your disc (or discs). There must be no credits of any kind on the scenes or on the disc. Simply put your name and the course number in handwriting on the dvd.

I will not file a grade for you until your SA tells me that these materials are in hand, so be sure to be prompt.
